

**Medium-Chain Chlorinated Paraffins****30-07-2025**

Dear Sir or Madam,

GMT-Benelux hereby declares that the products supplied by our company comply with applicable environmental regulations and do not intentionally contain Medium-Chain Chlorinated Paraffins (MCCPs) above the regulatory threshold.

We confirm that:

Our products comply with the requirements of the REACH Regulation No. 1907/2006, including the latest version of the Candidate List of Substances of Very High Concern (SVHC).

Our products also comply with the RoHS Directive (2011/65/EU) and its amendments, which restrict the use of certain hazardous substances in electrical and electronic equipment.

Since MCCPs are covered under both REACH and RoHS requirements, and we already provide REACH and RoHS compliance declarations, we consider a separate certificate specifically for MCCPs redundant.

Best regards,

Roy Tervooren
Managing director
